

DepED – NSTIC Consultative Conference

The Department of Education (DepED) through the National Science Teaching and Instrumentation Center (NSTIC) conducted a National Consultative Conference on the Use of Science Equipment on September 22-23, 2011 at the DepED Ecotech Center, Sudlon, Lahug, Cebu City.

It was participated in by the Regional Science Supervisors from all over the country. The conference was aimed at reviewing and editing the final draft of the Manuals and planning the mechanics for the one-week Regional Roll-out Training-Workshop on the Use and Care of the Science Equipment from Year 1-IV, which is tentatively scheduled on November 2011-January 2012.

Furthermore, this was the offshoot of the supply and delivery of Science equipment and consumables to four hundred thirty five (435) public secondary schools nationwide, which was completed on May 10, 2011. The NSTIC initiated and implemented the project on the Drafting of Manuals, which guides teachers on the proper use of these equipment and consumables. **MJCD**
